

PROGRAM OBJECTIVE

Back on Track is to facilitate successful reintegration of the participant back into the community.

It is our desire to reestablish participants with community based organizations and services that will enable a smooth transition from custody to the general populace.

As a primary part of the program, the Los Angeles County Probation Department focuses on the critical time by ensuring that a Probation "Coach" meets with the individual within 90 days to the scheduled release date.

Probation Coaches develop a rapport with the participant, discuss their risks, needs and partners with them in developing a realistic case plan.

The following services are available for the participants when requested or as the need arises:

- Transitional Housing
- Mental Health and Substance Abuse Treatment
- Employment Services
- Basic budget principles

WHAT'S IN IT FOR YOU?

- Potential to reduce recidivism in your life
- You are positioned to become a contributing, law abiding member of society
- You are presented with the opportunity to change and rebuild your life
